Twelve Years a Slave-Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." - an excerpt

A Handbook of Gods and Goddesses of the Ancient Near East-Douglas R. Frayne 2021-03-01 From the tragic young Adonis to Zašhapuna, first among goddesses, this handbook provides the most complete information available on deities from the cultures and religions of the ancient Near East, including Anatolia, Syria, Israel, Sumer, Babylonia, Assyria, and Elam. The result of nearly fifteen years of research, this handbook is more expansive and covers a wider range of sources and civilizations than any previous reference works on the topic. Arranged alphabetically, the entries range from multiple pages of information to a single line—sometimes all that we know about a given deity. Where possible, each record discusses the deity's symbolism and imagery, connecting it to the myths, rituals, and festivals described in ancient sources. Many of the entries are accompanied by

illustrations that aid in understanding the iconography, and they all include references to texts in which the god or goddess is mentioned. Appropriate for both trained scholars and nonacademic readers, this book collects centuries of Near Eastern mythology into one volume. It will be an especially valuable resource for anyone interested in Assyriology, ancient religion, and the ancient Near East.

Paris Haussmann-Benoît Jallon 2021-02-15 First published in 2017 in conjunction with an exhibition at the Pavillon de l'Arsenal in Paris, this widely praised and still much sought-after book becomes available again in a new edition. It offers an analytical review from today's perspective of the French capital's profound transformation during the late nineteenth century under the direction of Georges Eugène Baron Haussmann. Paris Haussmann: A Model's Relevance explores and analyzes the characteristics of Paris's homogenous yet fluid cityscape, the result of a lengthy process of changes and evolutions, even in recent times. Research was conducted at all levels to classify and compare roadways, identify public spaces, and organize the blocks and buildings according to their current geometry. For the first time, the qualities of the Haussmann model have been set forth to

show how they grapple with the same challenges that contemporary cities face. Topical essays feature alongside rich illustrative material, comprising photographs by celebrated photographer Cyrille Weiner, site plans and maps, floor plans and sections, axonometric projections, and various graphics.

Off Armageddon Reef-David Weber 2008-01-02 Humanity pushed its way to the stars - and encountered the Gbaba, a ruthless alien race that nearly wiped us out. Earth and her colonies are now smoldering ruins, and the few survivors have fled to distant, Earth-like Safehold, to try to rebuild. But the Gbaba can detect the emissions of an industrial civilization, so the human rulers of Safehold have taken extraordinary measures: with mind control and hidden high technology, they've built a religion in which every Safeholdian believes, a religion designed to keep Safehold society medieval forever. 800 years pass. In a hidden chamber on Safehold, an android from the far human past awakens. This "rebirth" was set in motion centuries before, by a faction that opposed shackling humanity with a concocted religion. Via automated recordings, "Nimue" - or, rather, the android with the memories of Lieutenant Commander Nimue Alban - is told her fate: she will emerge into Safeholdian society, suitably disguised, and begin the process of provoking the technological progress which the Church of God Awaiting has worked for centuries to prevent. Nothing about this will be easy. To better deal with a medieval society, "Nimue" takes a new gender and a new name, "Merlin." His formidable powers and access to caches of hidden high technology will need to be carefully concealed. And he'll need

to find a base of operations, a Safeholdian country that's just a little more freewheeling, a little less orthodox, a little more open to the new. And thus Merlin comes to Charis, a mid-sized kingdom with a talent for naval warfare. He plans to make the acquaintance of King Haarahld and Crown Prince Cayleb, and maybe, just maybe, kick off a new era of invention. Which is bound to draw the attention of the Church...and, inevitably, lead to war. It's going to be a long, long process. And David Weber's epic Off Armageddon Reef is can't-miss sci-fi. Stand Firm-Paul Gould 2018-11 In an age of skepticism and disenchantment, people long for something that satisfies our mind's search for truth and our heart's desire for beauty and meaning. Stand Firm: Apologetics and the Brilliance of the Gospel argues that the gospel satisfies both of these needs. It is true and rational, but it is also inherently attractive and provides meaning and purpose. In short, the gospel is brilliant. It is brilliant, in one sense, because of the broad variety of evidences for its truth. But it is also brilliant given its beauty, goodness and the meaningful life it offers. The book provides up to date responses to questions about the

existence of God, the reliability of the Bible, Jesus and the resurrection, and the problem of evil. It also treats unique topics such as understanding truth, knowledge and faith, the claims of alternate faiths, religious disagreement, etc. Each chapter attempts to connect these considerations with the gospel so that we may stand firm in our faith.

Hazel's Phantasmagoria-Leander Deeny 2008-03-06 Hazel, the heroine, travels to her Aunt's country house for a holiday. Her Aunt is bitter, angry and rude, so Hazel expects her stay to be a nightmare - little does she expect, though, that there are actual nightmares living in the garden. These creatures - scary amalgams of different animals such as gorillas and leopards - haunt her Aunt every night in her dreams with horrific scenarios. Much to her surprise Hazel is drawn into their world of creating and rehearsing these nightmares. With her new social circle consisting of gorillas crossed with leopards, pythons crossed with porcupines, ducks who smoke cigarettes, wooden-headed dogs and murderers and lunatics Hazel finds herself exploring the scariest depths of the unknown and learns a useful lesson along the way about the nature of friendship. The lively, exciting and fast-paced narrative and quick humour makes this book an addictive read.

Or Else, the Lightning God & Other Stories-Catherine Lim 1980

Along Came a Demon-Linda Welch 2013-01-11 I'm told the dead are all around us. I wouldn't know about that, I see only the violently slain. They can be victims of hit-and-run, innocents caught in a cross-fire, the murdered. They whisper to me and they never, ever, forget the face of their killer. I've learned to live with my uncanny ability, in fact I've made a career out of it. The departed aren't the only supernaturals I see. No, they're not vampires or werewolves or fae - those things don't exist. We live side by side with what some call the Otherworldly. That's too much of a mouthful for me, I call them demons. If you saw them as I do, you'd know why. Right now I'm trying to track down a missing six year-old boy whose mother was murdered. Or maybe she wasn't. To further complicate the case, Clarion PD gave me a partner I'd rather shoot than work with. I can't tell them he's a demon. They'd think I'm crazy. I'm Tiff Banks. Welcome to my world.
